Laborie Medical Technologies is currently searching for a **Medical Device Micro-Assembler** to join our team in the **Portsmouth, NH** office.

Who are we?

LABORIE is an industry-leading innovator, manufacturer and supplier of medical technologies and devices, with headquarters in the United States, Canada and the Netherlands. We enjoy a strong diversity of talent with 875 global employees. We have grown significantly over the past several years and continue to invest in new technologies, companies and regions.

Innovation

LABORIE takes great pride in supporting doctors, nurses, hospitals, clinics, academic institutions and patients with treatment and diagnostic innovations. We are focused on educating healthcare providers and their patients on the latest solutions in Urological and Gastrointestinal health. But that's not all... recently we are delighted to announce that we have acquired Clinical Innovations, one of the largest healthcare manufacturers exclusively focused on labor, delivery and NICU.

Position Overview

The **Medical Device Micro-Assembler** reports to a Production Team Leader and is responsible for placing, gluing, mounting, and assembling sensors and sub-assembling catheters.

Responsibilities

- Mix and prepare 2 component adhesives and silicone.
- Work and handle microscope.
- Able to read and understand work instructions.

- After being trained accordingly, backup as additional resource in manufacturing processes, (e.g., but not limited to):
- Product final testing.
- Sleeve manufacturing.
- Cable manufacturing.
- Supporting Repair Department.
- Shipping of Finished Goods.
- Material Ordering.
- Report all non-conformity product issues to Production Team Leader.
- Assist Team Leader in assigned tasks.
- Adhere to the standard production procedures and quality standards for all work performed.
- Adhere to all hygiene and security standards of the company.
- Follow GMP, Work Safety, and ISO13845 requirements as enforced by:
- GMP: Food and Drug Administration 21 CFR.
- Employee Handbook USDoc11-230.
- ISO 13485:2016 Medical devices -- Quality management systems -- Requirements for regulatory purposes.
- Safety Handbook USDoc13-2456.

## Qualifications

- High school diploma or equivalent preferred but not required.
- Must possess ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals.
- Must be able to use a microscope and miniature tools such as tweezers and scalpel.
- Requires production work with ability to handle physical requirements, including, but not limited to, sitting for several hours, repeated bending, stretching, twisting, and lifting.
- Must possess ability to effectively measure using basic measuring equipment such as pin gages, micrometers, luer taper gages and rulers.
- Must possess a strong attention to detail and be a team player.

## Environmental Conditions:

- Medical Device Manufacturing ISO 13485

Today, LABORIE is one of the world's fastest growing medical technology companies. Since 2012, we have acquired 14 additional companies within our market space; product line offerings have increased, and we've expanded into new categories. We are excited by our recent change in ownership to Patricia Industries, a division of Investor AB. Investor AB is a leading owner of best in class international companies and holds significant shareholder interests in quality companies such as AstraZeneca, NASDAQ, ABB, Ericsson, Electrolux, Saab and many others. With this new partnership, we continue to grow as we make acquisitions and further accelerate our growth strategies. This kind of growth signals an exciting time for the company and presents great opportunities for joining our team of action-oriented and forward-thinking individuals are inspired by challenging career opportunities.

LABORIE is committed to providing equal employment opportunity to all applicants and employees regardless of their race, creed, color, religion, sex, age, national origin, disability, military service, protected veteran status, genetic information, sexual orientation, gender identity, or any other characteristic protected by federal, state or local law. We are strongly committed to this policy and believe in the concept and spirit of the law.

LABORIE is further committed to ensuring that employment decisions are based on valid job requirements. In addition, all employment actions, such as recruiting, hiring, training, promotion, compensation, benefits, transfers, layoffs and termination are administered fairly to all persons on an equal opportunity basis, without discrimination on the basis of protected categories named above. LABORIE will also provide qualified applicants and employees with disabilities any needed reasonable accommodations, as required by law.

LABORIE will not tolerate employees and applicants to be subjected to harassment, intimidation, threats, coercion or retaliation because they engaged or may engage in filing a complaint or assisted in a review, investigation or hearing related to any federal, state or local law requiring equal employment opportunity; or because they opposed any act deemed unlawful.

LABORIE, ([www.LABORIE.com](http://www.LABORIE.com)) is a leading global developer, manufacturer and marketer of medical technologies and devices. We deliver innovative Urological and Gastrointestinal products that improve patients' health and quality of life. Our reputation and brand continues to be the "gold standard" in our industry. In business since 1967, LABORIE's global reach extends to 11 offices, in 10 countries, with manufacturing facilities located in Canada, USA, The Netherlands and Switzerland. Working closely with clinicians, universities, and non-profits around the globe, we make a difference worldwide.
